

*nicare*

The image features the word "nicare" written in a black, elegant cursive script. The letters are fluid and connected, with a prominent dot on the lowercase 'i'. The word is enclosed within a decorative, hand-drawn outline that forms a shape similar to a heart or a speech bubble. This outline is composed of several thick black strokes. Small circular dots are placed at the top and bottom of the outline, and arrows are positioned at the left and right sides, indicating a clockwise direction of movement. The entire composition is set against a plain white background.
